“I like quality brands”

For 50 years, Reynaers Aluminium has been designing cutting edge glazing solutions for some of the most iconic buildings in the world. Engineered without compromise, our range of aluminium glazing products is specified time and again by the world's leading architects and construction companies.

Reynaers is a long established and very successful global business. We are dedicated to providing the discerning home owner with the very best products, combining style and performance without compromise.

At Reynaers, we have proven time and again that we can create the most stunning and complex glazing features. When you choose Reynaers Aluminium, you choose a company that has a wealth of experience and expertise; a company that will show the same dedication and attention to detail to even the smallest of projects as they do to the most prestigious architectural designs.

“I like
to buy
from a
company
I feel I
can trust”

Joie de Vivre House - architect: Barclay Home Design - USA - Photo: Blackstone Studios (Philip Clayton-Thompson)

“Style is
really
important
to me”

Whether you are designing and building your own house, adding a new extension to your current home or replacing the tired old French doors with a stunning new set of bi-fold doors, choosing the right doors and windows can make the difference between the ordinary and the spectacular.

Installing Reynaers products in your home is a lifestyle statement that will not go unnoticed. When only the best is good enough, Reynaers Aluminium is the only choice.

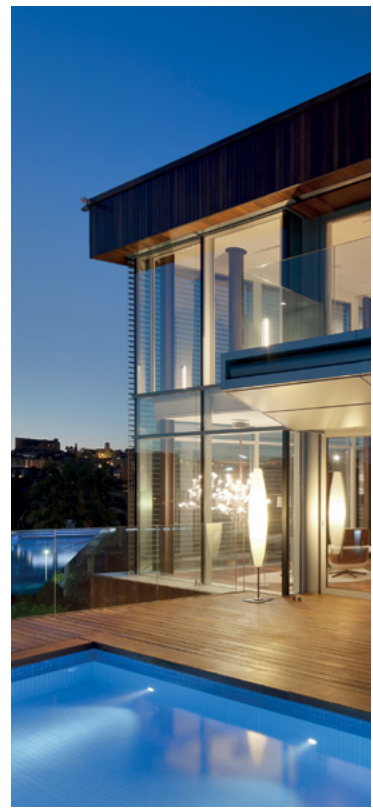

Any home should feel warm, safe and secure; a place where you can relax in comfort. Having worked with some of the most renowned architects in the world, we know that with some bold design, our stunning windows and doors can make your home feel truly special.

“My home
feels
special”

“I want windows and doors that add style and character to my house”

“For me, it’s not about price, it’s about quality and value for money”

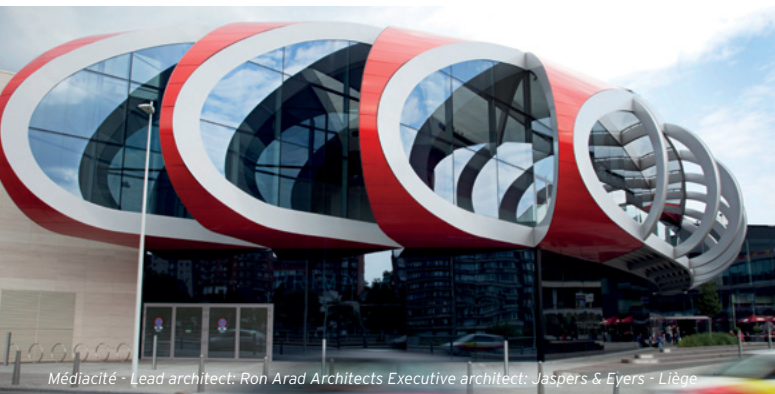

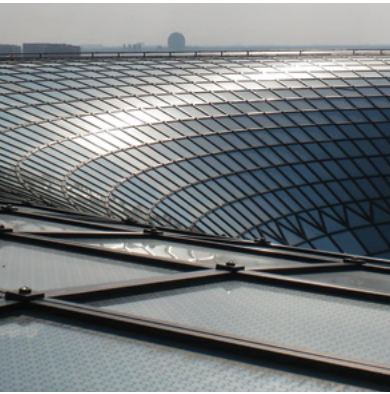

Private House Uznach - Daluz/González Architekten - Switzerland - Photo: Peter Baracchi

**“I want to be able to enjoy
an unobstructed view”**

With decades of experience of working with architectural aluminium, our doors and windows lead the way in combining structural integrity with slim frame profiles that maximise the glass area. Not only does this mean our aluminium frames are slimmer than equivalent PVCu and timber alternatives, but we can also span much greater lengths, giving you unobstructed panoramic views.

“I love contemporary design”

Private House Loppem - architect: Mark Van Acker - Belgium

It is no coincidence that aluminium is widely used as a window and door frame material in the most prestigious and iconic new buildings around the world. Select from hundreds of hard wearing, durable colour finishes and rest assured that they will never need repainting. Furthermore, expansion and contraction with changes in temperature are kept to a minimum, making aluminium the only sensible choice for bi-fold doors, patio doors and large picture windows.

“I like to have things that are different”

Conservatory Brasschaat - Belgium

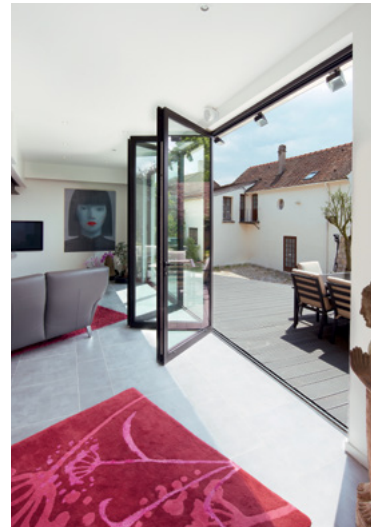

Most commonly used in projects with a more contemporary design, aluminium is often overlooked as a suitable material for more traditional properties. Our slim frame profiles mimic the sightlines of old Crittall windows, and a modern glass extension can both contrast and complement an older character property.

“I don't mind
paying a
bit more
for a quality
brand”

With a world class testing and design centre and many years of industry experience, Reynaers Aluminium are proud to be pushing the boundaries of product quality and performance. All our products are tested to meet and often exceed the European standards for security, weather resistance, thermal insulation, durability and noise reduction and have been installed in some of the most exposed locations.

“I want windows and doors that look stunning”

Private House Luzarches - France

“My home tells other people who I am”

Bi-fold doors can transform an ordinary room and make it a feature of the house, opening up the house to the garden and letting the outside in. An innovative, modern design statement, our aluminium bi-fold doors offer industry-leading sizes, giving your house the real wow factor.

Huge unobstructed glass areas and an effortless sliding mechanism combine to make our sliding doors the perfect solution for rooms with a view. Designed with security and weather resistance in mind, these low maintenance doors combine state-of-the-art performance with stunning aesthetics.

“I take
pride
in my
home”

“Returning
home puts
a smile on
my face”

For something really special, you can choose our pivot door. Unusual and versatile, this beautifully weighted door can make a wonderful feature in any home and will put a smile on your face every time you use it.

The garden can be a wonderful entertaining area. Our versatile patio glazing helps protect you from the worst of the elements, whilst still allowing you an unobstructed view of the garden. Couple this with a veranda to keep the rain off, and your garden can be used for regular entertaining, whatever the weather.

“I like to entertain friends and family in my home”

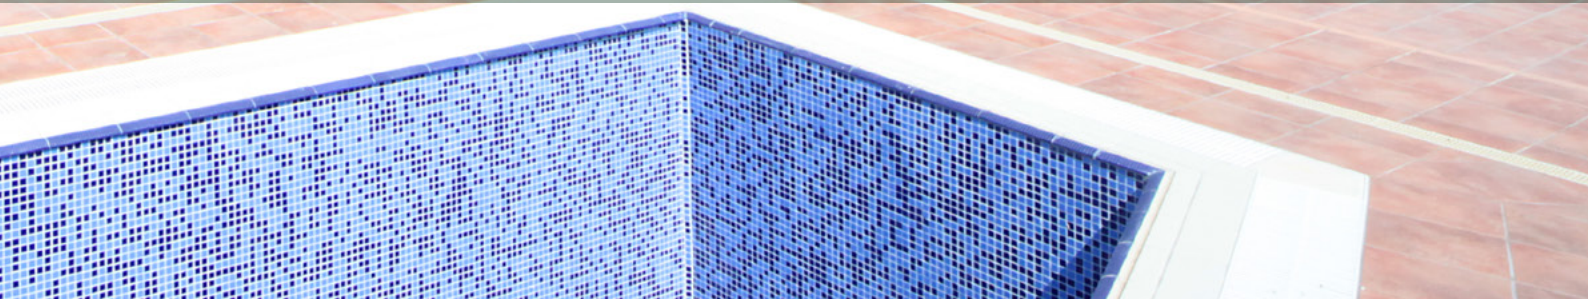

“I will only buy products for my home that have been thoroughly tested and are known to be reliable”

Private House Zvezditsa - Architect: Bignatov studio - Bulgaria

Whether you want a modern conservatory, a more traditional orangery or a stylish window in the roof to let light into your new extension, Reynaers Aluminium can offer a made-to-measure solution that is perfect for your home. What is more, you can include our patio doors or bi-fold doors in the design to give a truly spectacular additional living space.

“I love
light and
airy living
spaces”

“I like to keep my home
looking good”

Villa Rotonda - Bedaux de Brouwer Architecten - The Netherlands

As you would expect, Reynaers Aluminium offers a comprehensive range of complementary windows and doors. Whether you choose a fixed panoramic window, a tilt-turn window, a parallel opening window or a casement window, you can rest assured that they are all designed to offer uncompromising performance and stunning aesthetics.

Private House Holsbeek - Architect: DMOA - Belgium

“I want my home to be individual”

All Reynaers products are made-to-measure to meet your very specific individual requirements. With all our products you can choose from hundreds of colours with a matt or gloss finish, you can have a realistic wood-grain effect or for a real wow factor, choose one of our stunning metallic finishes. You can even have a different colour inside and out.

5 A

Aluminium is an abundant material that is infinitely recyclable with no loss of quality. What is more, the industry-leading thermal insulation that our products offer will help keep your energy bills down and that helps the environment too.

“Looking
after the
environment
is important
to me”

"I love the idea of being able to open up the house to the garden on a sunny day"

At Reynaers Aluminium we constantly seek to develop and improve our products and service for our customers and therefore reserve the right to amend our product specification from time to time. The photographs in this brochure show Reynaers products which may occasionally differ in detail and appearance from those we currently sell.

ABOUT REYNAERS ALUMINIUM

Reynaers Aluminium is a leading European specialist in the development and marketing of innovative and sustainable aluminium solutions for windows, doors, curtain walling, sliding systems, sun screening and conservatories. Besides offering an extensive range of standard solutions, the company also develops solutions that are tailored to the individual customer or project. Research, product development and testing are conducted at the Reynaers Institute, the sector's largest private innovation and testing centre, located in Duffel (Belgium). In addition, the company also provides extensive technical support and advice to fabricators, contractors and architects.
